Attorney Explains Details Involved If District Is Sold

An offer by the Sierra Pacific Power Company to purchase the facilities of the Truckee Public Utility District for $1 million which is being seriously considered by the board of directors of the district involves a rather complicated procedure.

Martin McDonough, attorney for the district, has pointed out some of the details involved in the sale of a publicly owned utility.

First, the directors must pass a resolution by four of the five members, that public interest and necessity demand that certain described public utilities be sold.

Then, also by a required two-thirds vote, the directors can call an election on the proposition, but the question of selling the electrical system would have to be separately stated from the question of selling the water system.

The votes of two-thirds of all voters voting at the election are necessary to authorize the sale of either or both utility systems.

If the outcome of the election is in favor of the sale, the board would proceed to call for bids, and thereafter either accept the highest and best bid, or reject all bids and call for new ones.

The sale when accomplished, must be in cash for the full amount and the proceeds of the sale must be used only for the purposes and objects mentioned in the ordinance calling the election for the sale of the utility.

"Since sale of its public utilities by a public agency is frequently attacked in the courts," McDonough advised the board, "I suggest to the board that if it desires to proceed in this matter it do so more carefully, avoiding any appearance of private discussions or commitments inconsistent with the statutory plan, and having the form of its resolutions and other documents reviewed by its counsel prior to acceptance."

what's doing?

I couldn't even guess how long it would take to count from one to 2 quadrillion-600 trillion, because such a figure is so colossal. Yet that's the number of different connections in the Bell System's switching equipment. And they make it possible for any one of the 68 million telephones in the System's network to reach any other phone. But because this switching is done so swiftly, you'll never be aware of all the mechanical decisions it takes to pick a path from your number to the one you're dialing. Yes, 2,600,000,000,000,000 adds up—to speed and dependability whenever you phone.

WINTER SPORT STUDY STARTED BY JOHNSON

By Harold T. "Bizz" Johnson
Congressman Second District

As the commerce department and forest service launch a comprehensive winter sports study in the northwestern portion of the nation, I conducted a small survey of my own on the impact of this type of recreation in the 19 counties of the second district where there are 24 ski and winter sports areas located on private land, National Forest and National Park land. It is estimated that winter sports enthusiasts spend some $12 million in our clocal communities annually. This is big business, employing 1,100 during winter months when other employment is scarce.

Winter resorts are located all along the mountain areas from Mt. Shasta, Cedar Pass and Horse Mountain on the north to Onion Valley on the south. The heaviest concentration is in Sierra-Nevada areas most accessible from the San Francisco Bay region and Sacramento, although operations in Inyo and Mono Counties draw heavily from all of Southern California.

Size of operations range from tows primarily for local use to the giant complexes of Squaw Valley, Mammoth Mountain and Heavenly Valley. There are 66 rope tows, 26 drag type lifts and three aerial tramways. Regardless of size, each facility is important to local communities where skiers stop for gasoline, meals, equipment and lodging. The winter sports resorts themselves have an annual gross income of about $8,500,000. Related business adds millions more. In addition, the $40,000,000 capital investment of the ski industry expands the tax base through increased assessed valuation of improvements on public lands and nearby private lands. This is beneficial to local government.

Use Increasing

Use of these areas is increasing by leaps and bounds. With winter use now at 750,000 visitor days each season, the total will exceed the million mark in the near future. Growing public need will demand more development in the years ahead for which we must plan now. In addition to ski sites, there is a public need for snow play areas for non-skiers who just want to get into the snow for a while.

The forest service is studying a number of such potential winter sports sites now and will make them available for commercial development in the future. Forest service officials tell me that unfortunately most of these are not readily accessible and will require new road construction and snow removal plans before commercial development can be economically feasible.

Close cooperation of governmental units essential for this type of development will result in economic benefits to all concerned. A good example of this cooperation is the Mammoth Mountain Ski Area. Mono County constructed several miles of high standard access road, making the multi-million dollar development possible.

The result has been a marked boost to the winter economy of that part of the Second District. Tahoe City and Truckee have benefited materially from the developments at Squaw Valley, Alpine Meadows, Powder Bowl, Granlibakkan, Sugar Bowl, Donner Ski Ranch and Soda Springs.

Everything considered, it is obvious that winter sports is helping to make recreation the fastest growing year-around business of the second district.

AIRLINE IS REFUSED CERTIFICATE AS TAXI

The federal avaiation agency denied issuance to Paradise Airlines of an air taxi operator certificate. Application to operate an air taxi service using a DeHavilland "Heron," a four-engine small aircraft, from the bay area to Lake Tahoe, was made by Paradise following the emergency suspension and denial of issuance of a commercial operators certificate.

The hearing on the appeal of the suspension action was dismissed by the Civil Aeronautics Board Examiner in San Francisco on April 7, 1964. No further appeal was made by Paradise of that action.

In announcing the present action, Joseph H. Tippets, director, western region, said, "the agency has found that Paradise Airlines lacks qualification to conduct the air taxi service in view of its past record of numerous and repeated violations of the safety regulations."

The weather? Well we've had it, rain, sleet and snow! This is June? School is out, so it must be summer time, but it's hard to believe when you see fresh snow on the trees again!

Members of the Donner Lake Water Ski Club met last Sunday to discuss plans for the summer. They plan their opening social event for June 13th at 4 p. m. at their club headquarters, Donner Beach. Anyone interested in water skiing are urged to attend and join the ski rides and games planned Saturday.

Officers this year are: Kent Garrett, Reno, president; Chuck White, Donner Lake, vice president; Karen Hansen, Sacramento, corresponding secretary; Jackie Marquette, Donner Lake, recording secretary; Doris Ruth Jamieson, Donner Lake, treasurer; Ray Grow, Reno, parliamentarian; Bill Notley, Truckee, publicity chairman; Robin Storrs, Reno and Richard Pallie, Donner Lake, historians.

Several of their members expect to compete in other water ski meets at Lodi, Lake Merritt and Chambers, Lake Tahoe.

* * *

Mr. and Mrs. Harold See of San Mateo were up last weekend to prepare their home near Beaver Cove for the coming season. They have built an interesting circular pier that gives their grandchildren a protective area for swimming.

* * *

Mrs. Phillip Smith is now employed by the Harris Construction Company. Her husband is with the division of highways and they are living in the Lovell duplex at Donner Lake.

* * *

Lona Boren and Kitty Money are hostesses for the next meeting of the Donner Lake Volunteer Fire Department Ladies Auxiliary June 18 at Manzo's.

Candidates for the Miss Donner Lake Queen Contest will be introduced and judged at the dedication of the Truckee Tahoe Airport June 20-21 according to auxiliary president Charlotte Harris. The crowning of the queen will be part of the program.

* * *

Arlene and Bert Johnson, owners of the Thunderbird Dude Ranch in Healdsburg were recently here painting and papering their vacation home.

* * *

Now's the time to think about landscaping. An area can improve in looks with even just a little effort, but first let's take note of what a visitor sees. The beauty of the lake and surrounding land is there, but so are the eye sores. Old cans, broken glass, a discarded Christmas tree, those awful car junks, scrap wood, metal, etc. The experts say "a clean place is a safe place." Perhaps some eager school boys make a little money by offering to help an owner clean up.

Donner Lake Volunteer Firemen don't forget the "beer bust" at the firehouse this Sunday.

Put an arm around a young man's shoulder

Business and industry are helping to pay the costs of today's education

If you've sent any sons or daughters to college lately, you are no stranger to the rising costs of education. Tuition rates have increased as much as 300 per cent since 1950.

Are the schools making ends meet? Hardly. At most colleges and universities, the tuition you pay covers *less than half* the cost of your child's education. Someone has to provide the remainder.

America's corporations are contributing in many ways. Standard will provide nearly $1½ million this year for scholarships, fellowships, grants and materials for schools and colleges.

Our scholarships and fellowships have no strings attached. We do not select the recipients, nor do we expect them to come to work in our Company.

It's simply a way of putting an arm around the shoulders of promising young men and women. And helping to answer the plea: "Give us more trained minds to serve the nation."

Planning ahead to serve you better

Rain Rain Go Away Come Another Day—
We Golfers Want to Play!

* * *

Last Sunday even if it was raining, there were still quite a few people out playing golf. We got wet off and on, but we had fun. As you all know, the crazy golf tournament and barbecue was postponed because of the rain. It is scheduled again for this Sunday, June 14, weather permitting. So let's keep our fingers crossed that the rains will stop.

* * *

Grass Valley will not be able to come up for the visitation tournament on June 28th. They have committed themselves to another engagement, so we are trying to get Auburn to come up for that weekend. Will let you know what's what.

* * *

By the way, how about each one of you getting busy on getting 100 members in our club. We are pretty close to that figure, but not close enough.

CLASSIC CHECK—A suspicious-looking check? Not to the grocery clerk who cashed it, much to the probable merriment of the casher. VIVE LES GIRLS MAKING BIG HIT AT NEVADA LODGE WITH ALL NEW 1964 PARIS VERSION

CRYSTAL BAY — There's an adults only continental show in the Topaz Room of the Nevada Lodge at the North End of Lake Tahoe that has been the talk of the town for the last two weeks. It's producer Frederic Apcar's spicy "Vive Les Girls," now in its second edition and flying high at the North End's most exciting resort-hotel casino.

Besides the spectacular costumes and the positively stunning ladies from Gay Paree, the show is an amazing potpourri of comedy, talented dancing and the most vibrant, interesting music this side of the twelve-tone scale. With an all-new cast and line-up Apcar has woven music, dancing and comedy into an artistic presentation of unequaled proportions.

And on top of this show, the Nevada Lodge presents on the same stage The Esquires, the swingin' trio that has held its own as the solo lead act in many a club in the West.

A gentle, lovely whiff of Paris is lent to the Vive Les Girls show by lead model and French chanteuse, Jacqueline Douguet. This talented lass is a sight to behold.

Just turned 22, Jacqueline reveals why she was featured for several years in the Casino de Paris revue in France. Her show stopping performances culminate in a sensational adagio dance with handsome Bernard Chareyron.

"Vie Les Girls" may be seen three times each evening, except Monday (9 p. m., 11 p. m. and 1 a. m.) The 9 p. m. show is the dinner show for which reservations are advised.

The new edition, like the first edition last year, will certainly smash all attendance records at North Tahoe's largest year-around resort-hotel-casino.

The show also spotlights London's curvaceous chanteuse, Kim Darvos—a striking blonde beauty; the juggling artistry of the Peiro Brothers, the apache dancing of Les Danmory; the singing of a medley of French and American songs by male singer, Jean Philippe, and several exquisitely costumed fashioned numbers including "Tropical Paradise" and a Cinderella tableaux.

Throughout the entire panorama, the orchestra directed by Jerry Gray of Glenn Miller and Artie Shaw fame keeps pace with the constantly changing stage activity.

The Esquires is the trio of dynamic, musically versatile comedians that has broken records throughout the Reno-Tahoe entertainment circuit. With Bob Hanna on piano, Joe Martini on accordion and Eddie Bee on bass, the trio romp through a collection of hilarious musical novelty routines, then turn serious for some exciting vocal stylings and instrumentals.

On Monday evening, the Topaz Room of the Nevada Lodge will feature a $3.30 buffet dinner from 6:30 p. m.

JOHNSON SEEKS FUND FOR WASHOE WORK

Congressman Harold T. Johnson of Roseville Wednesday completed three days of testimony before house of representative and senate committees in Washington, D. C., urging support of Second District water projects.

In appearances before the appropriation committees of the house and senate, Representative Johnson advocated a $28,000,000 program of construction and engineering work on some 30 irrigation and flood control projects.

Included among the projects advocated by Johnson was the Watasheamu reservoir on the Washoe project, located on the Carson River and for which he asked $906,000 be earmarked for work the first year.

On the Truckee river, Stampede reservoir, also a part of the Washoe project, Johnson said that some $80,000 is needed to continue engineering design.

Infant mortality during 1963 established a new low of 25.0 per 1,000 live births.

In California...
at a picnic, beer is a natural
When you're relaxing at your favorite outdoor beauty spot with friends or family, and your thirst's whetted by fresh air and exercise—that's the ideal time for a cool, refreshing glass of beer. In fact, you can name your recreation—swimming, hiking, or just watching TV—and chances are nothing in the world fits it quite as well as beer.
Your familiar glass of beer is also a pleasurable reminder that we live in a land of personal freedom—and that our right to enjoy beer and ale, if we so desire, is just one, but an important one, of those personal freedoms.
In California...beer goes with fun, with relaxation

Revised Zoning At Tahoe Proposed

TAHOE CITY — A revised zoning plan for the Placer County portion of Lake Tahoe will be aired by the county planning commission in Tahoe City Friday. According to C. A. Gibbs, commission chairman, the proposed zoning plan would permit repeal of obsolete provisions of the existing plan.

Other items to be considered at the meeting, which will begin at 10 a. m., in the Tahoe City Community Center include: a first hearing on a precise zoning plan for Squaw Valley; and, discussion of proposed areas for service industries near Kings Beach and Tahoe City.

The area zoning plans, Gibbs said, is not proposed for official adoption at this time but will be made available for study to those agencies and persons interested in the proper development of the Tahoe area.

According to Gibbs, adoption of the new zoning mpps will permit repeal of existing zoning ordinances affecting Placer County at Lake Tahoe. This old ordinance, he said, was drafted over 20 years ago and is beginning to create serious difficulties for the planning commission as well as investors and residents of the Tahoe area.

The planning commission members will travel to Lake Tahoe on Thursday, June 11, for a field trip so that they can personally review all the items coming before them on the following day. Gibbs said, certain problem areas, including needed sanitary land fill site proposals outside the Tahoe Basin, will be inspected on the field trip.

Suit Filed In Death Of Jim Stamback

The state employes retirement system last week filed a $70,744 suit on behalf of the widow of the late Highway Patrolman James Stamback, 39, who died June 15, 13 days after he was struck by a truck operated by Gerald E. Teeter, of Sacramento. The suit was filed against Teeter and Richard White, owner of the truck.

Teeter has been sentenced to a prison term on a drunk driving conviction.

Stamback was a former member of the Truckee squad of the patrol.

Doubt Looms For Cal-Neva Opening

CRYSTAL BAY — There is increasing doubt if Frank Sinatra's Cal-Neva Lodge at Crystal Bay will be opened this season.

Newell F. Hancock, Cal-Neva controller said that negotiations with a group, which he declined to identify, to lease the plush lodge, "seem to have fallen through." He added that "if anyone wants to lease Cal-Neva, we're ready to talk business.

Sinatra's gambling license was revoked last October by the Nevada Gaming Commission.

Hancock said Sinatra did not want to have anything more to do with Nevada gambling.

The earliest the club can be lisensed is June 16 when the commission meets again.

Excellent Record Set By Bus Drivers

California's 9343 school buses operated an estimated 118,000,000 miles in 1963, transporting nearly one million pupils every day—without a single student death, Highway Patrol Commissioner Bradford M. Crittenden said.

"This record once meant that school buses provide the safest ride in California," the commissioner pointed out.

"The patrol inspects every California school bus at least once a year to assure maintenance of proper safety standards," he said. "Patrol officers also conduct written and behind-the-wheel examinations for school bus driver applicants.

During 1963 there were 1016 school bus accidents resulting in 400 injuries—166 of them pupils—and two deaths, both persons in other vehicles involved in collisions with buses. The fatality rate for school bus accidents thus was 1.69 per 100 million vehicle miles, far below the 5.2 rate for all vehicles.

A total of 1763 motorists were cited for passing a stopped school bus displaying dual flashing red lights. Eight accidents were attributed to this violation, the commissioner said.

AMERICAN SAVINGS OPENS LAKE BRANCH

INCLINE VILLAGE—American Savings and Loan Association of Reno has opened its third branch office at Incline Village, the first savings and loan association to come into the rapidly expanding area.

At a luncheon meeting held Thursday in the Crystal Bay Club, Frank D. Arnold, president of the association told 50 local business leaders who had come to bid him welcome to the area, that the reason for opening the Incline Village branch was the desire of the first state chartered savings and loan association in Nevada to meet the demands of the people of the Lake Tahoe region for funds with which to construct homes in the area and to encourage savings.

The new office is located in the Lakeview shopping center in Incline Village and open house will be throughout the coming week. Free gifts for everyone attending.

The betrothal of Diana Dunckhorst to Terry Walker was announced by the bride-elect's parents, Mr. and Mrs. William H. Dunckhorst of Bijou, with a formal wedding planned for some time in August.

The ceremony will take place in a Bijou church, with the reception following in the home of Mr. and Mrs. Dunckhorst.

The future bride is a graduate of South Tahoe High School and a past honored queen of Bethel No. 323, Job's Daughters of Al Tahoe. Miss Dunckhorst is majoring in home economics at Sierra College.

Walker, the son of Mr. and Mrs. James Walker of Truckee is well known here where he was a 1962 graduate of Tahoe Truckee High School where he was active in athletics. He is a past master councillor of De Molay and had the office of chaplain in the Nevada Association of the lodge. Following the nuptial rites, the young couple plan to reside in the Roseville district and to continue their college courses.

ACCIDENTS

(Continued from Page 1)

Minn., was taken to the hospital for treatment Saturday at 5:45 p. m. when he apparently fell asleep and ran off the road seven miles east of Truckee on the freeway. Three other people in the car escaped injury. The driver was cited by the patrol.

Only minor injuries were suffered by John G. Stathis, 30, Reno, in a rear end collision five miles east of Truckee Sunday at 5:30 a. m. Stathis' car struck the one driven by Roger W. Cushman, 55, of Yuba City when the latter changed lanes when it was unsafe. Cushman was cited.

Roger Dale Irwin, 4, was knocked to the pavement on East Main street in Truckee Friday at 6 p. m. when he ran in front of a car driven by Albert Manetta of Truckee. The car was proceeding at a very slow rate of speed and the boy was not seriously injured.

Parents living along the narrow street have been warned to keep the children off the thoroughfare as previous accidents have been reported there with children playing in the street or dashing in front of cars.

Denver Leroy Hensley, 40, of Napa, was hospitalized Tuesday morning for injuries suffered when a car he was driving struck a sign at the Woodvista Motel in Kings Beach at 6:45 a. m. Two passengers in the car suffered minor injuries. The CHP said drunk driving charges would be filed against Hensley.
